

Apogee Innovation Challenge

AIC-2019

WHAT IS AIC?

AIC is a unique college event aimed to provide a platform to students to work on real industrial problems while being in the college itself.

HOW DO I BENEFIT FROM IT?

Except the enormous amount of experience you gather about the actual working of industry, AIC has lucrative prizes to offer. It gives students a chance to showcase their talent to companies and win huge cash prizes and procure Summer Internships at leading global brands.

APOGEE INNOVATION CHALLENGE

Zulip was originally developed as proprietary software by a startup called Zulip, Inc., based in Cambridge, Massachusetts. In 2014, while in private beta, the company was acquired by Dropbox. In September 2015, Dropbox open-sourced it under the Apache License. Today, it is a leading open source alternative to Slack or HipChat, with over 29,000 commits contributed by 450 people.

ZULIP

First Leg: PART 1 (Introduce Yourself) - Complete the task "Submit A Pull Request to Zulip GCI Submissions Repository" and to know more follow the link(<https://bit.ly/2MiVLvz>)

First Leg: PART 2 (Solve an easy issue) - Solve an issue labelled "good first issue" in any of the zulip repositories at <https://github.com/zulip>.

First Leg: Part 3 (Know how to use Zulip Server) - Do the "Intro to Zulip server development", task from the given link(<http://github.com/zulip/zulip-gci/blob/master/tasks/2017/intro-to-zulip-server.md>). You can post the screenshots of your work on <https://chat.zulip.org/#narrow/stream/261-AIC> with your name as the topic of the message.

Second Leg - Complete a project of your choice in any area of Zulip.

Problem Statement

Winner 40,000/- cash prize (In case of multiple winners, the amount will be equally divided).

First Leg Qualified - Certificate signed by Zulip CEO - Tim Abbott

The teams will be graded based on their approach, explanation of one or more methods attempted and reasons why specific methods were used/not used final solution & presentation.

Rewards
